

Great Deciduous Interest

Don't be afraid to use deciduous selections around pools. Mixed with evergreen, they often add a splash of bold colour and year-round interest.

**Lagerstroemia indica x fauriei
'Tuscarora'**

CREPE MYRTLE TREE (HOT PINK)

This deciduous tree has small oval shaped green leaves that turn a stunning reddish/orange in the autumn. The most striking part of the tree is its beautiful coral red crinkled flowers that are borne in late summer. They flower heads form on new growth and are encouraged by winter pruning. The smooth bark is beige coloured with red-brown streaks.

Acer rubrum 'Autumn Red'

CANADIAN MAPLE TREE

This is a very common deciduous tree in North America. It is a beautiful rounded tree for autumn colour selection, although leaves stay green longer than other varieties before turning bright orange to deep red. All parts of the tree, for example flowers, twigs and seeds, are red in varying shades.

Melia azedarach

WHITE CEDAR TREE, CHINA BERRY TREE

This is a fast-growing tree with a rounded crown and dense leaf covering, making it a good choice for a deciduous shade tree. Glossy new foliage emerges in spring along with clusters of showy, fragrant, lilac flowers followed by hard, yellow to pale orange bead-like fruits which hang on the tree well into autumn after the leaves have fallen. It produces a lovely yellow-orange colour in Autumn.

Cercis canadensis 'Forest Pansy'

BURGUNDY REDBUD TREE

This small, attractive tree has spectacular heart-shaped, burgundy coloured leaves that continually change colour throughout the year. A rich purple in spring, the foliage transforms to green over summer, followed by a multi-coloured autumn display in tones of red, apricot and gold. The branches have a distinctive, smooth, dark brown wood which contrasts well with the blossom like pink flowers that are borne before the re-emergence of leaves in spring.

Fraxinus pennsylvanica 'Urbdell'

URBANITE ASH TREE

This tree is attractive and tough. It has a pyramid shape with a strong, upright trunk and develops grey brown bark which becomes deeply furrowed as it matures. Yellowish-green flowers are produced in spring and in autumn, dark green, glossy foliage turns a beautiful bronze colour before falling. Suitable to a wide variety of both residential and commercial projects, it has a moderate growth rate and adapts to most soils and conditions.

Gleditsia triacanthos var. inermis 'Sunburst'

GOLDEN HONEY LOCUST TREE

A beautiful, deciduous tree with a broad, open, spreading canopy and soft, weeping, hanging, pendulous branches. Young foliage, bipinnate leaves, start off a bright yellow colour and ripens to lime green. In winter, large black seed pods hang from the branches. It is a popular tree due to its vibrant colour and overall graceful appearance. This is a thornless variety of Gleditsia.

Magnolia (syn. Michelia) doltsopa x laevifolia 'Inspiration'

INSPIRATION MAGNOLIA TREE (EVERGREEN)

This is a larger growing hybrid with dark green leaves, dense habit and a beautifully sweet scent from white cupped flowers that adorn the tree in spring. Adds height to the garden growing to 4m tall.
