

Iconic Lemon-scented Gums - Our Best Selections

How is it that the perfume from a row of Lemon-Scented Gums can evoke a sense of familiarity, calm and warmth? So Australian, we detail our favourites lemon-scented tree selections here.

Corymbia citriodora **LEMON-SCENTED GUM TREE**

A beautiful, tall growing Corymbia (syn. Eucalyptus) with a distinctive, often powdery white to grey coloured bark which curls and flakes off in spring. Its leaves are green, long and slender with an amazing, strong lemon fragrance when crushed. Its strong scent is a distinguishing attribute, with the essential oils produced from this variety often being used in fragrances as well as insect repellents. In summer and autumn, feathery white flowers appear, making it a good source of food for honey bees.

Corymbia citriodora 'Scentuous' **(syn. 'Dwarf Pink')** **'SCENTUOUS' DWARF LEMON-SCENTED** **GUM TREE**

This is a slightly narrow-domed Corymbia (syn. Eucalyptus), developed by Speciality Trees, doesn't shed its branches. It has a smooth trunk that may be slightly mottled. The bark is a pinky-salmon in colour. Leaves are narrow and highly aromatic when crushed smelling strongly of lemon. This tree features lovely cream-coloured flowers in summer.

Corymbia citriodora 'Lemon Essence'

'LEMON ESSENCE' DWARF LEMON SCENTED GUM

This tree is a dwarf version of the much larger Australian Lemon-Scented Gum. It has the same beautiful attributes of its parent (lemon-scented foliage, smooth trunk, pinkish-white bark) but grows smaller and more compact. Unlike the more upright growing Corymbia citriodora 'Scentuous', this tree has a larger, rounded canopy.

Corymbia citriodora Baby Citro

'Babycit'™ 

'BABY CITRO' DWARF LEMON-SCENTED GUM TREE

This is a grafted compact form of the beautiful Lemon-scented Corymbia (syn. Eucalyptus) with a stunning white trunk, fragrant foliage and dense growth habit.

Leptospermum petersonii 'Lemon Frost'

TEA TREE

This is an attractive fine-leaved small-growing Tea Tree new to our range with a delightful fresh lemon scent. Produces an abundance of starry white flowers in summertime. Great for attracting birdlife into your garden and can be used as a fragrant hedge!

Leptospermum petersonii 'Lemon Hedge'

TEA TREE

As a small, fast growing small native tree or shrub, this is a nice selection for a scented native hedge. Branching is pendulous. Little white flowers appear in summer.
