

Petite selections for screening

Screening for small spaces

Banksia integrifolia **COASTAL BANKSIA TREE**

A lovely and distinctive native. It has long green leaves with a silver underside and pale yellow cylindrical flowers from summer to winter. We have this tree in a range of sizes available now, from 30cm, 40cm through to 150 litre bags.

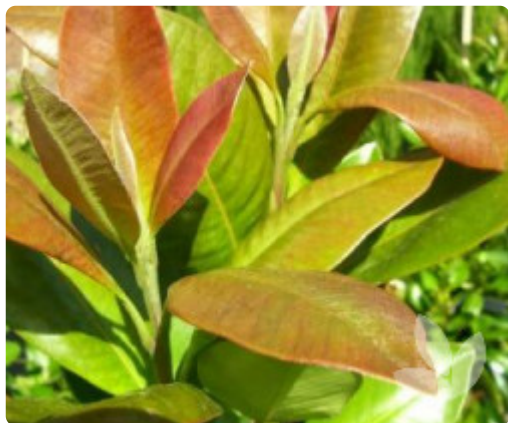

Hakea bucculenta 'Red Pokers' **RED POKERS HAKEA TREE**

An Australian Native small tree/shrub from Western Australia. This is a stunning tree that produces beautiful orange-red flowers in winter and spring. These flowers sit within the foliage but are easily seen due to their colour and the trees open habit.

Acacia cognata 'Burgundy Cascade' **BURGUNDY CASCADE WEEPING WATTLE TREE**

A stunning shrub or small tree with cascading foliage. This Australian native has thin smooth green leaves with a burgundy edge that gives it an interesting range of colour throughout the year. The flowers are small, ball shaped, pale yellow and speckled throughout the foliage.

Tristaniopsis laurina 'DOW10'

Luscious® 

LUSCIOUS KANOOKA GUM TREE, WATER GUM TREE

This is a good selection for a screen with shiny dark green leaves that are slightly larger than those found on straight Tristaniopsis laurina. We like this one because it offers copper tonings on new growth (as pictured) all with interesting purple bark that peels to reveal a smooth cream trunk. Talk to us now on 30cm and 50 litre stock!

Magnolia grandiflora 'Sweet Spire'™

SWEET SPIRE MAGNOLIA TREE (EVERGREEN)

This is a new selection of evergreen Magnolia suitable for little spaces in full sun or part shade. 'Sweet Spire' grows upright and slim with dark green leaves. It produces creamy white flowers from spring to autumn.

Leptospermum obovatum 'Starry Night'

STARRY NIGHT TEA TREE

A versatile, fast growing shrub with fine, deep purple foliage forming a graceful, weeping habit with its purple-pink new growth. In late spring and summer, bronze buds open to a profusion of long-lasting snowy white flowers. A great Australian native adaptable to a variety of soil types and conditions and can be used as a screen, hedge or specimen plant.
