

Acacia cognata 'Green Magik'

GREEN MAGIK WEEPING WATTLE TREE

A native to south-eastern Australia, this is an attractive wattle with pendulous branches and beautiful weeping habit. The foliage on 'Green Majik' is an attractive grassy green as opposed to its lime green 'Lime Magik' counterpart. The flowers are soft yellow balls, speckled throughout the tree.

As a small feature tree it looks great mass planted in the open or under the shade of bigger, taller tree. Can work as an informal hedge and adds great texture and colour in all sized gardens.

Prefers moist situations and can grow very well in dappled shade. can tolerate most soils and pH levels.
