

Acacia cognata 'Copper Tips'

COPPER TIPS WEEPING WATTLE TREE

Tree	
Description	This is a beautiful small tree growing to 5m tall with dark green pendulous foliage and lovely copper-coloured tips, hence its name. Small, pale yellow tea-tree like flowers cover the ends of branches in Spring.
Foliage	 Evergreen
Form	 Pendulous
Mature Size	2-5 x 3m
Uses	This variety adds a pretty element to a garden. Weeping foliage lends itself well to soft, informal screening. Great as a feature tree in any type of landscape design or part of a larger native Australian garden planting. Bird-attracting.
Position & Soil	Prefers an open sunny or part-shade position in a well-drained soil. While it only requires minimal pruning to keep shape, it responds well to pruning. For best results, apply a long term slow-release fertiliser in early spring. Prefers an open or part shade position. Hardy and frost tolerant. Adapts to most soil types.
