

Acer palmatum dissectum 'Green Globe' (Standard)

GREEN GLOBE JAPANESE MAPLE TREE
STANDARD

Tree	
Description	This decorative variety of Japanese Maple has fine bright green lace-like leaves that change to yellows and oranges in Autumn. It is a grafted variety that usually grows in a rounded shape on a clear trunk.
Foliage	 Deciduous
Form	 Round
Mature Size	1-1.5m x 1-1.5m
Uses	Plant in containers or in the garden as a beautiful small feature tree for year-round interest. Prune each winter to maintain its shape.
Position & Soil	This variety likes a position of full sunlight in well-drained soil. Japanese Maples have moderate water requirements. Avoid a location that is unprotected from north or west afternoon sun, or hot winds in summer.
Features	 Small  Deciduous  Round  Driveway  Feature Foliage  Group Planting  Specimen
