

Acer palmatum dissectum 'Inaba Shidare' (weeping standard)

INABA SHIDARE WEEPING JAPANESE MAPLE TREE

Tree	
Description	This is a vigorous and sturdy, upright growing Japanese maple with a cascading form. It retains its larger, intricate crimson-burgundy foliage well throughout the season. They do not bronze out in late season, as do other red dissectum maples.
Foliage	 Deciduous
Form	 Weeping
Mature Size	1.5-1.8m graft
Uses	A robust small tree for small, sheltered park and garden sites.
Position & Soil	This variety does well in hot sun and humidity but needs some afternoon shade with adequate watering. Avoid a location that is unprotected from north or west afternoon sun, or hot winds in summer. Prefers a humus rich soil in a protective position.
Features	 Small  Deciduous  Weeping  Feature Foliage  Purple Foliage  Specimen
Pot sizes in production	• 40cm/27L (1.5m graft)
Substitutes	<ul style="list-style-type: none"> • Acer palmatum 'Bloodgood' • Acer palmatum atropurpureum • Acer palmatum dissectum atropurpureum '(weeping standard)'
