

Tree
**Acer palmatum dissectum
'Omurayama' (weeping standard)**

 OMURAYAMA WEEPING JAPANESE MAPLE
 TREE

Description	A beautiful Japanese Maple with bright green leaves that are distinctly serrated. Autumn colour is a brilliant gold, orange and crimson. New growth carries an orange tinge.
Foliage	🕒 Deciduous
Form	🕒 Weeping
Mature Size	1.4-1.8m grafted
Uses	This is a unique tree, suitable as a feature tree in small parks and gardens. Can be grown in containers or planted in rows where it will add great colour in summer and autumn.
Position & Soil	Once established this tree is adaptable to a range of soil types but ideally, a moist, well-drained soil is preferred. Avoid a location that is unprotected from north or west afternoon sun, or hot winds in summer as this may stress the tree or scorch the foliage.
Features	🕒 Small 🕒 Deciduous 🕒 Weeping 🕒 Feature Foliage 🕒 Group Planting 🕒 Specimen
Pot sizes in production	
Substitutes	• Betula pendula 'Youngii' • Ulmus glabra 'Camperdownii' (Weeping Standard)
