

## **Acer pentaphyllum**

### **FIVE LOBED MAPLE, CHINESE STAR MAPLE TREE**

<b>Tree</b>	
<b>Description</b>	This is an unusual Chinese Maple that produces beautiful coloured foliage year round. It is known to be wind and sun tolerant. Grows quickly to a small vase-shaped tree to 5-6m. Foliage is red, narrow and lobed, and form is light and airy making it a good tree for underplanting. Small yellow flowers appear in spring. Autumn colours range from yellow, orange to red.
<b>Foliage</b>	 Deciduous
<b>Form</b>	 V-Shaped
<b>Mature Size</b>	5-6m x 4m
<b>Uses</b>	Use as a feature tree or multi-plant (with space) in a wind-sheltered position.
<b>Position &amp; Soil</b>	Prefers cool, deep, moisture-retentive soil in a sheltered site. For best results mulch with organic material (e.g. straw) and shelter from drying Summer heat.
<b>Features</b>	 Small  Deciduous  V-Shaped  Avenue  Feature Foliage  Group Planting  Specimen
<b>Pot sizes in production</b>	
<b>Substitutes</b>	• Acer elegantulum
