

Acer shirasawanum 'Aureum'

GOLDEN FULL MOON MAPLE TREE
(JAPANESE MAPLE TREE)

| | |
|-------------------------|---|
| Tree | |
| Description | This is a beautiful small Japanese Maple with bright golden green foliage. It will look stunning planted as a feature due to its open form and amazing bright-green, almost yellow foliage. In autumn, leaves go that extra shade of yellow. |
| Foliage |  Deciduous |
| Form |  V-Shaped |
| Mature Size | 2-3 x 2-3m |
| Uses | This tree makes is an ideal feature tree for colour contrast in any dappled light location. Growing to 2-3m tall it is particularly suitable for protected and shaded gardens or in a suitable container. This variety is a very-slow growing tree. |
| Position & Soil | Prefers moist, well-drained soil in morning sun or part shade. Avoid a location that is unprotected from north or west sun, or hot wind in summer as this may cause scorching of the leaves. |
