

## **Corymbia ficifolia 'Fairy Floss'**

### **GRAFTED FLOWERING GUM**

<b>Tree</b>	
<b>Description</b>	A small and very attractive grafted native tree with an attractive leaf and the palest of pink flowers - almost white - in comparison to all other flowering gums available. This corymbia has a dense canopy that is covered in pink flowers in summer.
<b>Foliage</b>	🌿 Evergreen
<b>Form</b>	🌳 Round
<b>Mature Size</b>	6 x 4m
<b>Uses</b>	A very good performer for big and small Gardens adding lovely summer colour. Great in streetscapes and parks for native habitat.
<b>Position &amp; Soil</b>	This grafted variety likes full sun to part shade and will tolerate most soil types and conditions. Best grown in a temperate climate with low humidity
