

Ficus carica 'Brown Turkey'

BROWN TURKEY FIG TREE, COMMON
EDIBLE FIG TREE

Tree	
Description	<p>This is a small deciduous tree with bold, deeply lobed leaves and insignificant flowers followed by medium-sized edible fruit which are first green, but purplish when ripe. This is one of the hardiest varieties of fig. Usually produces one-two crops of fruit per year. Foliage has a distinct shape. This is a self-pollinating variety. 'Brown Turkey' works well in both cold-temperate, dry inland and sub-tropic areas, as it requires low chill hours.</p>
Foliage	 Deciduous
Form	 Round
Mature Size	4 x 4m
Uses	Makes an attractive specimen and productive tree for fruit. A nice selection for Mediterranean inspired gardens.
Position & Soil	Prefers a well-drained or moist soil in a sunny location.
