Tree	
	Lophostemon confertus
	QUEENSLAND BRUSH BOX (TREE)
Description	A rainforest tree native to the North-Eastern parts of Australia, this is a fast growing tree which is rarely affected by pests and diseases. Dome-like in shape, it develops a very dense foliage cover of dark green, leathery leaves providing good shade for the summer months. This variety rarely sheds limbs and has salmon coloured bark which flakes off over summer revealing orange-brown tones on the trunk. Summer also brings clusters of small white flowers whose stamens give them a decorative fluffy appearance.
Foliage	& Evergreen
Form	Oval
Mature Size	15 x 10m
Uses	Great for parks and gardens and as a feature tree. Great native choice that gives great shade.
