

**Prunus serrulata 'Shirotae' syn.
'Mt Fuji' (Tree Form)**

MT FUJI ORNAMENTAL CHERRY (TREE
FORM)

Tree	
Description	A very popular feature tree for small gardens. This deciduous, ornamental cherry develops a spreading flat crown with branches that droop down slightly. A beautiful display of pure white, semi double blossoms cover the tree in early to mid-spring, followed by finely serrated, pale green leaves which darken to mid green over the warmer months. Autumn brings another display of colour with foliage turning shades of orange and red. A beautiful specimen tree throughout the seasons.
Foliage	 Deciduous
Form	 V-Shaped
Mature Size	4 x 6m
Uses	Due to its form and flowering ability, this tree makes an eye-catching feature tree in gardens requiring a wider growing tree.
Position & Soil	This tree prefers a full sun to part shade position and a moist, well drained, fertile soil. However, it is adaptable to a wide range of conditions.
