

Cotinus coggygria 'Grace'

SMOKE BUSH

This deciduous shrub/tree has beautiful reddish/purple leaves darkening in summer. This variety turns a range of beautiful colours in autumn such as orange, red and yellow. The flower plumes are greyish giving an enhanced smokey effect.

A highly valued ornamental shrub used for its fantastic autumn foliage. An outstanding specimen in a hedge or shrub border, and a great choice for planting in groups.

Will grow in a wide range of soils and climatic conditions but would prefer a full sun position in well-drained soil.
