

Eucalyptus mannifera 'Little Spotty'

DWARF RED SPOTTED GUM TREE

An attractive native with a slender trunk and bark that is strongly spotted and ornamental. 'Little Spotty' was chosen for its smaller growth and ornamental features. This tree has wide spreading canopy and grows relatively fast. It has narrow green leaves and white flowers in the summer.

Prefers an open sunny position or light shade and is tolerant of many soil conditions, drought and frost.

Hardy and reliable in street plantings and a good native selection for small gardens.
