

Feijoa (syn. Acca) sellowiana

PINEAPPLE GUAVA TREE, FEIJOA TREE

This is a small evergreen fruiting tree to approximately 3m tall. It produces green-skinned fruit with a sweet, aromatic flavour, which taste like pineapple, apple and mint. As a tree, it has attractive leathery green leaves with silvery undersides and pinky-white flowers with large red stamens. Good as a contrast tree in the garden.

Use for fruiting purposes or as a feature tree due to its size and colourings.

These trees can be sensitive to wind damage so plant in a relatively protected area. Also prefers humus rich soil for best results.
