

Fraxinus oxycarpa syn. angustifolia 'Raywoodii'

CLARET ASH TREE

An attractive, fast growing deciduous tree with an upright growth habit and open canopy. The foliage is deep green and narrow in summer and as autumn approaches, turns a rich claret colour, hence the name. This is a beautiful tree with stunning autumn colours, tolerant of frost and drought.

A popular tree for summer shade and autumn colour. Makes a brilliant specimen tree.

Prefers a deep loam soil for best results.
