

Ginkgo biloba 'Princeton Sentry'

This is a fastigate, male Ginkgo selection. Its dense and upright form makes it a good choice for narrow plantings. Foliage has the fan-shape typical to Ginkgo turning from green to various shades of gold in autumn.

This is a medium-sized selection best used for year-round interest in narrow plantings where height is required. Consider for driveways and avenue plantings. Also makes a lovely feature tree.

Is tolerant of a wide range of conditions but prefers a full sun position in a moist, well drained, humus rich soil.
