

## Liquidambar styraciflua 'Ward'

### LIQUIDAMBAR TREE, 'WARD' SWEETGUM

This is medium-sized pyramidal feature tree when young, maturing to a broader, rounder form with corky-like bark with age. Attractive foliage is a glossy medium green turning to a range of yellow, red and burgundy in autumn before falling. A full sun position provides the best autumn colour.

A beautiful specimen tree for autumnal colour in the landscape, in commercial open spaces such as parks, gardens and streets where space permits.

Prefers a full sun position in humus-rich soil.

**Foliage** Deciduous
