

Liquidambar styraciflua 'Worplesdon'

LIQUIDAMBAR TREE, 'WORPLESDON' SWEETGUM

A moderate growing tree is popular for its beautiful foliage and its ability to display bright red, green, yellow and purple foliage sometimes all at the same time. A pyramidal grower, it gets a rounder habit with age.

A great shade tree for medium to large backyards, parks or landscapes.

Full sun positions are ideal, in fair to good quality soils. Will cope with slightly wet areas.
