

Magnolia grandiflora 'Little Gem'

LITTLE GEM MAGNOLIA TREE (EVERGREEN)

This is a lovely tree which flowers from an early age, producing beautiful creamy white, saucer shaped flowers in spring and summer. Leaves are a classic glossy deep green colour with furry brown undersides forming a nice compact evergreen tree with a dense covering of foliage. A hardy and reliable variety which makes it a consistently solid performer in the landscape.

A great feature tree in small or large gardens. Can also be planted in groups. Prune regularly to avoid leggy growth.

Performs best in full-sun to part shade and tolerates polluted city atmospheres. Prune to shape in spring. Likes the application of a balanced long-term fertiliser. Magnolias require organic, well-drained soils with summer irrigation for success.
