

Malus domestica 'Jonathan'

JONATHAN FRUITING APPLE TREE

One of the oldest Apple varieties around, this variety produces small to medium-sized fruit, round in shape with red skin with patches of yellow. Its flesh is crisp and juicy.

Suitable for eating fresh and in cooking. Pick Time: Mid season

Prefers a sunny position with well-drained soil. Water in well and keep soil moist until tree is established. Fertilise and prune yearly to encourage new growth and fruit the following year. Chill-hours for fruit development: High chill hours required. Pollinators: Granny Smith, Magnus Summer Surprise or Cox's Orange Pippin are required nearby for this tree to pollinate and fruit successfully.
