

Prunus persica 'J H Hale'

MILLION DOLLAR PEACH TREE

This mid-late-season large rounded peach variety has deep yellow skin with a slight red blush. Its yellow flesh has a grainy texture and sweet flavour. Fruiting occurs in 3-4 years when mature.

This variety is suitable for eating fresh, drying and stewing.

Prefers a sunny position in a humus-rich, well drained soil. Take care to plant the bud union above the soil level. Water in well and keep soil moist until tree is established. Fertilise when planting and again after new growth appears. Prune can be done at planting time to encourage new growth.
