

Pyrus communis 'Sensation'

SENSATION FRUITING PEAR TREE

An attractive fruiting Pear it has glossy green leaves turning to reds in autumn. It produces bright red, medium-sized fruit with creamy white flesh that is sweet and well flavoured.

Need to pick fruit before ripening. Sensation Pears are great for eating fresh, cooking and juicing.

Pears like most soil types and can tolerate frost. It prefers a sunny position with well-drained soil. Water in well and keep the soil moist until the tree is established. Plant with another pear tree variety to produce better yields. Fertilise and prune yearly to manage branch structure and to encourage new growth and fruit the following year.
